Luxury Intelligence: YouTube API client overview

Prepared for the YouTube API Services audit, 2026-10-12

Summary

Applicant	Individual developer running Luxury Intelligence (luxury-intel.com), an independent weekly publication, Copenhagen, Denmark. kochemir@gmail.com
Channel	https://www.youtube.com/@luxury-intel (UCRe3d86MDYBdmxmBsnYg_oA)
Cloud project	wired-height-456014-u8 · OAuth client "Luxury Intel Uploader" (Desktop app)
What it does	Once a week, after our news digest is built, a server-side script (GitHub Actions) uploads one 60-second vertical news Short to our own channel.
API use	videos.insert (upload) and videos.list (read our own upload's status). Scopes: youtube.upload, youtube. About 1 upload per week; default quota is sufficient.
Users	One: the channel owner. No end users sign in; no other user's or channel's data is accessed.
Data stored	Only our own video's ID, title and upload time (screenshot 4).
Display	Standard YouTube embedded player (youtube-nocookie.com) on luxury-intel.com digest pages, loaded only after the visitor presses play. No player modification, no ads.
Disclosure	Narration is AI-generated; uploads declare altered/synthetic content.
Privacy policy	https://luxury-intel.com/about#privacy, with a "Videos (YouTube)" section linking the YouTube Terms of Service and Google Privacy Policy (screenshot 1).

Data controller. Luxury Intelligence (luxury-intel.com), Copenhagen, Denmark. Questions or requests: feedback@luxury-intel.com.

If you just read the site. Every visit is counted anonymously: the page, the site that linked to it, your country and device type. No cookies are set and no IP address or identifier is stored — telling visitors apart within a single day uses a one-way code whose key is deleted daily.

If you accept analytics cookies. We also use Amplitude (data stored in the EU) to understand which stories and features are used, including session recordings of how pages are used. Text typed into form fields is masked and IP addresses are not stored. This runs only with your consent, which you can withdraw at any time via *Cookie settings* in the footer.

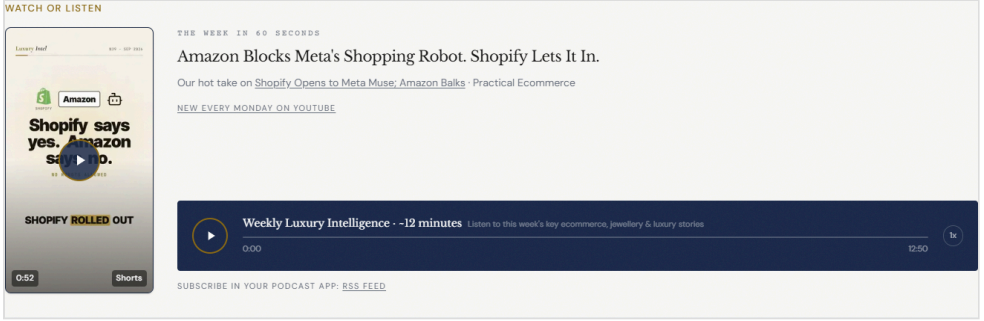

If you subscribe or support. We store your email address and plan to send the digest (via Resend), and payments are handled by Stripe — we never see your card details. Your email is kept until you unsubscribe or ask us to delete it; payment records are kept as accounting law requires. Messages sent through the feedback form go to us via Formspree.

Where data goes. The site is hosted on Vercel and subscriber data is held in a Neon database; some of these providers process data in the United States under the EU–US Data Privacy Framework or Standard Contractual Clauses. We never sell data and run no advertising.

Videos (YouTube). Our weekly videos are hosted on YouTube. Digest pages show our own preview image, and the YouTube player (from youtube-nocookie.com) loads only when you press play. From then on YouTube processes data under the YouTube Terms of Service and the Google Privacy Policy. We use YouTube API Services only to upload videos to our own channel; we never access visitors' YouTube or Google accounts.

Your rights. You can ask to see, correct, export or delete your data, or object to its use, by emailing the address above. You may also complain to the Danish Data Protection Agency (Datatilsynet).

2 · Where the video appears (digest page, desktop and mobile)
